

SUNTECH TANGO+ BLOOD PRESSURE MONITOR WITH SP02 ON SALE

An Automated Blood Pressure Monitor for Stress & Exercise Testing

Specifically designed for use in treadmill, bicycle (ergometer), and pharmacological stress testing, the Tango+ reliably monitors blood pressure allowing you to focus on your patient. Tango+ comes with the patented Orbit-K™ cuff (available in 4 different sizes), which was designed specifically for stress testing. This unit comes with the SpO₂ measurement option to make your stress ECG system a complete and seamless diagnostic test center. When reliable automatic blood pressure is required, SunTech Medical delivers.

SunTech's proprietary algorithms provide exceptional performance in this difficult environment. The hands-free interface makes Tango+ an indispensable part of stress testing.

Demonstration unit, with all accessories, on Sale (including Sp02) for a limited time. Contact Tanya at: 800-268-0759 or tanya@imagemonitoring.com for a quote.
